

what is going on in this country when a media giant like Sinclair broadcasting can order its tv stations to air an anti-Kerry movie only two weeks before the election. This country is becoming a disgusting dishonest mess because of George W. Bush and the fact that Colin Powells son runs your organization. If they want this program released then put it out on DVD just like that Farenheit 9/11 movie. Using the public airwaves for this kind of smear programming is absolutely disgusting and makes me sick to my stomach to be an American.
